Event		VC Mike Green and Chairman Dave Khan arranged a trip around Cheadle, with some very interesting sites, clues to Murders etc. and an opportunity to look at a rogues gallery of Club Members in their criminal (alter?) ego.  The culprit was found to be Peter (Pervect) Owen who dispatched his unwitting victim. On inspection what was first thought to be rigor mortis was actually just the effect of the poison as he had been killed with an overdose of Viagra from Peter Pervect's extensive stash. He now only has a thousand doses left !
